Fall Assembly Parking Advisement
Cathedral of St. Mary, 1111 Gough St.

Please carpool. No really, **PLEASE CARPOOL.** We have 80 spaces available to us at the cathedral. Due to the unique circumstances of our Fall Assembly being held on a Sunday, there will be religious services/classes being held simultaneously which will make parking on the street and nearby garages necessary. The host committee decided to provide the following information to assist in making parking off site as painless as possible.
Please reference the map provided.

GENERAL PARKING

P2 Japan Center Garage* 1610 Geary Blvd.
https://sfjapantown.org/parking/

Street Parking

- About 100 spaces of street parking around the venue.
- ***See map***: street parking indicated in **GREEN**
- Sundays: meters & 2-hr limit not in effect in **GREEN** areas
  ****Note: the single long block across Geary St. is 2-hr restricted*
- **Cleary Court** is the best option and **Gough St.** is second, with short distance and fairly level walking.

Venue Parking

We ask that you proactively avoid the church lot if you are able. Spaces are **very** limited.

- There will be parking lot monitors.
- You may see open spaces when we begin to redirect.
- This is because we are sharing with churchgoers.
- We have an understanding with the venue to monitor and limit the inflow.

PLEASE BE ADVISED

White curbs at the front and side of the cathedral are for passenger drop off only, and towing will be enforced.

Do not park in St. Mark's, please. This is not a public lot (despite what internet maps may say).

Sunday meters and 2-hour limit not in effect *within three blocks*. Please look around for signs.
****Note that the single long block across Geary St. is 2-hour restricted.*

Japan Center Garage: The Host Committee highly recommends this option. The entrance is 1610 Geary Blvd. about one-half block off the map; follow the red line and arrows to the left side of the map.
* If you pass it, two immediate right turns put you at the **alternate entrance: 1737 Post St.**

Street Parking: In the urban environment vehicle interiors must be left completely empty visually, and no valuables left inside even if hidden. Essentially, closer to the church is safer.
